

CS 7311: Data-Driven Computational Methods and Infrastructure

Fall 2019

Syllabus updated Oct 15 2019

Instructor	Dr. Jelena Tešić (pronounced as Yeh-LE-nah TE-shich)
Contact	jtesic@txstate.edu (office x5-3436)
Faculty Profile	https://cs.txstate.edu/accounts/profiles/j_t463/
Office Hours	Tue 11:30 a.m. – 1:30 p.m. or Thu 4:00 – 6:30 p.m. by appt
Class Meets	Thursday 6:30 p.m. – 9:20 p.m. @ Comal 212
Open Labs	DERR 231 (Linux Lab) MCS 590 (Windows Lab)

Course Description

This course covers computational and statistical methods for using large-scale data sets ('big data') to answer scientific and business questions. It focuses on framing research questions, understanding how data can answer them, and using modern software tools such for scalable data storage, processing, and analysis.

Course Objectives

The students will be able to:

- Formulate concrete research questions to address business or scientific objectives
- Identify or collect data to answer research questions
- Design tools to process, clean, and organize data for subsequent analysis
- Create and run data processing and analysis pipelines to compute statistical results over large-scale data sets using modern high-performance computing infrastructure
- Present results clearly using data visualizations and written prose
- Interpret analysis results and identify their implications for business concerns or scientific interest
- Determine appropriate data processing technology to support a desired analysis method

Objective of this class is for teams of two or three students to

1. Formulate the business or scientific objective, identify or collect the data to answer the objective, and research and propose data-driven choice of computational or programming methods
2. Design tools to process, clean, and organize data for subsequent analysis
 - a. Determine appropriate data processing technology to support a desired analysis method
3. Create and run data processing and analysis pipelines on modern high-performance computing infrastructure
4. Interpret analysis results and identify their implications for business concerns or scientific interest
5. Clean, package, share, and deliver the code using github.txstate.edu repository

Course Material

There is no official textbook

Instructor will provide set of online references and tutorials for specific data science problems

What is expected of student registered for CS 7311?

- (1) Attend instructional meetings, in person or via Zoom.
- (2) **Read announcements** from the instructor posted on TRACs course site.
- (3) Be informed and prepared for the class, complete pre-class assignments.
- (4) **Schedule presentations on time and submit assignments on time.**
- (5) Clearly communicate with the instructor regarding and issues, delays or unforeseen circumstances in timely manner. Emailing is the fastest way to reach the instructor.
- (6) Attend office hours and ask questions in timely manner.

Assessment

All material to be uploaded to git.txstate.edu/CS7311/NetID.git repo

Pre-class Assignments 10 pt

- Assign 1 – intro
- Assign 2 – Learn new 2019 edition data science tool and present in class

Participation 20 pt - FCFS schedule on TRACS

- Assign 3 - Critique and presentation/summary of papers
- Assign 4 - Walk-through tutorial, web series, demo w git code on
 - data driven computation methods **OR**
 - data driven infrastructure and programming methods

Progress Presentation 40 pt

- Assign 5 - Project Proposal Presentation:
 - research idea, related work, data source, and what tools and framework - Sep 19 and Sep 26
- Assign 6 - Midterm Checkpoint Presentations - Oct 17 and Oct 24
- Assign 7 - Midterm Report Draft – pdf or README.md – due Oct 17th 6:30 PM
- Assign 8 - Final Project Presentation, Dec 5 at 6 pm and Dec 12 at 5 pm

Research Project 50 pt due Dec 12 5:00 PM

1. Assign 9 – Final Project Report delivery
 - a. Exploratory Data Analysis and Implications part in the report
 - b. Framework, Tool selection implementation and application
 - c. Proof-of-concept result analysis; implications within scientific scope
2. Assign 10 – Final Code and Demo delivery
 - a. Demo and documentation
 - b. Deliverable: clean, package, share

Communication

Best way to contact the instructor is to send her an email. All announcements will be posted on TRACS, and all resources on git.

Course Schedule

Following is a tentative schedule for the class. **Exact topics and dates may be updated as the course progresses.**

Class	Date	Lecture	Assignments/In Class Presentations
1	Aug 29	Introduction	Introduction and Objectives
2	Sep 5	Data Preparation	Present Research/Tool/Paper
3	Sep 12	Data Cleaning	Present Research/Tool/Paper
4	Sep 19	Data Analysis	Project Proposals
5	Sep 26	EDA	Project Proposals
6	Oct 3	Machine Learning	Present Research/Tool/Paper
7	Oct 10	Machine Learning	Present Research/Tool/Paper
8	Oct 17		Project Checkpoint Presentation
9	Oct 24		Project Checkpoint Presentation
10	Oct 31	Visualization	Analysis of proposed pipelines
11	Nov 7	Graph Analysis	Analysis of proposed pipelines
12	Nov 14	Spark and GraphX	Analysis of proposed pipelines
13	Nov 21	Bias and Fairness in Data Driven Methods	
14	Dec 5	Demos and Final Project Presentation	
15	Dec 12	5- 7:30 PM Demo and Final Project Presentation (FINAL EXAM DATE)	

Policies

Grade Grievance Policy: If a student believes a mistake has been made in grading an assignment, the student has one week after an assignment is returned to resubmit an assignment for re-grading if they believe there is an error.

Drop Policy Students will not be automatically dropped for non-attendance: if you are planning to drop the class or withdraw from the class, follow the instructions listed on registrar's web site:

<http://www.registrar.txstate.edu/registration/drop-a-class.html>

It is your responsibility to be familiar with the University Policy on dropping classes as described in the catalog and the TXSTATE website (see), to observe relevant deadlines, and to follow proper procedures for dropping classes.

Incomplete Policy CS department has a strict policy regarding 'Incomplete grade'. It has to be approved by the chairman and thus an 'Incomplete grade' will only be granted under unexpected and truly severe situations, which must be supported by some official documents.

E-mail Policy: During the work week, instructor will respond to personal emails within 24 hours. Instructor will review communication over the weekend but will respond on Monday to most situations. If you need to reach me by email, please use the subject line: Your Name, Course Name/Number, Topic. Please allow a full 24 hours before emailing me again about the same question or issue, and on Monday for inquiries sent over the weekend.

Plagiarism Policy: Except where explicitly and specially allowed (such as group project), all work submitted in class is expected to be your individual work. Plagiarism will not be tolerated and if detected will result in an automatic 'F' grade. Please refer to <http://www.txstate.edu/effective/upps/upps-07-10-01.html> for Texas State's Honor Code.

Extra Credit Policy: See Assessment

Accommodations for students with disability

Any student requiring special accommodations, should inform me during the first two weeks of classes. The student should also contact the office of disability services at the LBJ student center. Students who qualify for extra time for exams must take their test with ATSD and must schedule their test at the same time the test is given in class.

Academic Honor Code and Conduct

You are expected to adhere to

- the University's Academic Honor Code <http://www.txstate.edu/honorcodecouncil/Academic-Integrity.html>
- Code of Student Conduct - <http://www.dos.txstate.edu/handbook/rules/cosc.html>
- Texas State Mission and Shared Values: <http://universityplan2023.avpie.txstate.edu/overview/Texas-State-Mission-and-Goals.html>.

Free Online Courses through LinkedIn Learning Hub: <https://doit.txstate.edu/services/online-training.html>

Food Insecurity: Bobcat Bounty is the first student-run, on-campus food pantry at Texas State University. It is run by students under the direction of faculty from the Food Security Learning Community in the Nutrition & Foods Program. Our goal is to decrease food insecurity by providing healthy food to the students, faculty, and administration at Texas State University. The majority of our food comes from the

Hays County Food Bank, a partnership to create a grocery store style experience for clients.
