

Reading Assignment

CS 3398.251 and CS 3398.252, Spring 2012

Due in class: 2/8/2012 (W) or 2/9/2012 (Th)

(Can be handwritten or typed/printed on separate paper)

Read the paper (copy is on the website) and answer the following questions:

M. Lindvall, D. Muthig, A. Dagnino, C. Wallin, M. Stupperich, D. Kiefer, J. May, et al.
Agile software development in large organizations. *Computer*, pages 26-34, 2004.

1. What is the main purpose of the paper (from page 1) in one sentence?
2. What is the main argument or point of the paper in one sentence?
3. List one business driver that caused one or more of the companies to want to evaluate agile methods.
4. List one positive result of using agile methods for any one of the companies.
5. List one problem any one of the companies had implementing agile methods.

NOTE: CCB = Change Control Board, it's explained in Wikipedia
