

Q1-15 (should be clear from graded exam paper)

```
Q16 void FlipPositionsHeadTail(Node *& head)
{
    if (head == 0 || head->link == 0) return;
    Node *pre = head, *cur = head->link;
    while (cur->link != 0)
    {
        pre = cur;
        cur = cur->link;
    }
    pre->link = head;
    cur->link = head->link;
    head->link = 0;
    head = cur;
}
```

Exam 2 Score Distribution (CS 3358 §252 & §253, Spring 2026)
